

Air that is fresh and clean to breathe,
Bugs that crawl under every leaf.
Compost your scraps and your apple cores,
Don't leave your trash on the forest floors.
Everyone needs to do their part,
Flowers are like the planet's art.
Green grass grows where the sun is bright,
Helping the Earth is doing what's right.
Icy cold water in a mountain stream,
Just keep the world looking like a dream.
Keep all the beaches sparkling and neat,
Litter is something we have to defeat.
Make sure you turn the faucet off tight,
No leaving on every single light.
Oceans are home to the whales and the fish,
Protecting the woods is my biggest wish.
Quietly watch the birds in the sky,
Recycle your plastic so birds can fly high.
Save all the trees and the animals too,
The future of Earth is up to me and you!
Use a lunchbox instead of a bag,
Volunteer work is nothing to brag.
Walk to the park instead of a car,
X marks the spot where the treasures are.
You can be a hero for nature today,
Zoom into action for a happy Earth Day!
