Earth Day poem

The Earth awakes with morning light,

A precious gift, a wonderful sight.

From bright green fields to skies so blue,

A world of beauty, fresh and new.

Let's walk with care on peaceful ground,

Where gentle whispers all around.

Protect the forests, clean the seas,

And listen to the whispering trees.

On Earth Day, let our actions show,

The love for this dear world we know.

A gentle hand for all to see

Let's actively care for Earth today.
