

# Our Planet Earth

By Andrea Santos F.

God gave us an Earth for us to share  
For us to laugh, and play  
We must take care  
Of our lovely home every day  
We shouldn't have taken that for granted  
Causing pollution and destruction  
We have to stand and lead  
And take powerful action  
Let's all come together  
To save our planet  
It's in our power  
If we all just plant it  
More flowers and trees  
Girls and boys will enjoy  
If we all just agree  
To secure an Earth that's not destroyed  
To make every day an Earth day  
Reuse and recycle  
Let's all breathe in fresh and clean air  
To create a new life cycle
