

# Earth Day Poem

By Emma Kandov

Earth day comes once a year  
So lets celebrate while its here  
Pick up plastic make it clear  
Until it is perfect everywhere near  
Cleaning it up, just so fun  
So lets do it and get it done  
Help an animal, maybe a cat,  
Don't you just love that?  
Plant some trees and do it right,  
All the garbage should be at your sight  
Even if it takes one day  
Make the garbage go away  
All that matters is to clean the sea  
And I want you to help me
