

EARTH DAY POEM

By Jamika Jayanti Dedeles

21/4/26

The earth is warm,
Sunny, blue, green, both
Ocean and land home to species through species.
Night through day,
Animals gather together,
some meeting
Rivals while others make friends!
Oh, what
A wonderful planet that lives!
Oh no! Rescuers
Are trying, animals dying,
plastic in oceans,
and wonderful habitats are dying, what will we do?!
Let's try our best to help, save, and heal
Animals, oceans, habitats, and so much more!
With our help,
we can make a change in
Our green and blue planet!
