

Our beautiful Earth
The Earth is round, just like a ball,
and it spins many times around the
Moon and the Sun. Greeny green are
your trees; blue, blue is your sea
as beautiful as your summer, which
leaves me speechless. Caring for like
on Earth is not difficult to
achieve, if we all understand that
it is our great home.

Outside I see litter, it makes me,
Unhappy. It
Ruins the Planet.

Every living thing is beautiful.
And should be looked after.
Rabbit, Feeds and red kites.
Trees and plants should be left to grow.
Help to look after our world.
