

# **Stop Wasting Things**

By Kenneth Aguilar

We need to stop buying products  
We need to stop making waste  
It's always the same problem  
If we don't fix it, then we must face

Trash on the ground  
Bottles all around  
Paper blowing in the wind  
Recyclables we must send

To the factories  
I have some inquiries  
How do we recycle, reduce, and reuse  
So, this beautiful Earth we won't abuse

We're secretly polluting our world  
So think about it before you try to hurl

Everything into the garbage... No!  
Throwing trash out of the window...No!  
Polluting the ocean...No!  
Cutting down our trees...No!

It's all about waste reduction  
Thank you for tuning into my production  
Buy less and reuse more  
So, you must take less trips to the store

Now care for this **GLOBE**... before it breaks down and explodes!
