### Earth day

Earth day is Earth day too, its up to me and up to you . Too keep it  
clean, to keep it green, The prettiest place we ever seen.

The sky is big, the sun shines bright, The stars glow softly in the  
night, The forest , deserts , mountains tall , The Earth has something  
for all of us .

So lets be kind to land and sea, And protect it carefully. If we all  
try and do our part, We can help with all our heart.
