

Nahida Begum - 4/24/26

Save the Earth, Save the Universe! (Sonnet)

To recycle means to save,
To reuse means to conserve,
However, we must do our part and behave,
We cannot sit back and just observe,

To reduce means to minimize,
To save the earth, we need to work,
We cannot let greed lead to our demise,
We have to accept the earth's artwork,

The trees give us life,
The water gives us color,
We must help our wildlife,
We must become scholars,

Let's clean the earth,
We have to acknowledge its worth,
