

Our Power, Our Planet

The Earth is not just land and sea,
It's where we live, it's you and me.
The air we breathe, the trees we see,
All need care so they stay free.

Sometimes we waste, don't think twice,
Throw things away without a price.
But every bottle, every can,
Can be reused if we just plan.

We have the power to make a change,
Even small steps aren't that strange.
Recycle more, throw away less,
Clean up the world, reduce the mess.

Our planet's future is in our hands,
Not just in dreams, but in our plans.
If we all try, just do our part,
We can protect the Earth we're part of.

Because this world is all we've got,
A home we love, a shared spot.
So let's take care, starting today,
And keep our planet safe always.
