

# **Earth Day**

**By:Victoria.S**

**Spring is here and today is the day,  
No more pollution, it's Earth Day.**

**Today we pick up garbage from the ground,  
But we should still do that all year round.**

**As I see the pretty pink flowers bloom and people pick garbage  
up,  
Something else pops up.**

**I see the ocean filled with garbage,  
And I look up at the Sun, it's not happy and orange.**

**I pick up the garbage one by one,  
As I clean, more people come.**

**Be the change the world needs,  
Start by planting just one seed.**
